Leveraging Elentra to Support CBME

Mary Bouchard & Andrew Dos-Santos
September 26, 2019

I do not have an affiliation (financial or otherwise) with a pharmaceutical, medical device or communications organization.

Je n’ai aucune affiliation (financière ou autre) avec une entreprise pharmaceutique, un fabricant d’appareils médicaux ou un cabinet de communication.
Objectives

- Know where to manage CBME-specific program details within Elentra, such as adding competence committee members and documenting meetings
- Understand how Elentra can be leveraged to review, combine, and interpret resident assessment data
- Learn about upcoming features that will support CBME resident development
- Share and discover tips and tricks

Introductions

- What university/organization are you representing?
- Have you ever used Elentra?
- What are your goals for this session?
Activity (5 – 10 minutes)

- It’s January. Your program launches in July. What needs to be done before launching your program in CBME?
- Who is responsible for these tasks?
  > It’s ok if you aren’t sure – that’s why we’re here!

**Assessment or Evaluation?**

What is the difference between an **assessment** and an **evaluation** in Elentra?

An **assessment** is feedback completed on or about a learner. A completed assessment is almost always immediately visible to the learner. All assessments that are triggered/started from the CBME dashboard are immediately visible.

An **evaluation** is feedback completed on or about a **program**, **course**, **faculty member**, or **rotation**. An evaluation is almost always **not released** to the target of the evaluation, and is typically only released in confidential aggregate form.
