Fostering our global community of leaders and scholars in faculty development
Ivan and Karen’s thoughts and learnings
A Canadian experience

• Write down something that you are excited about from the last 2 days (new ideas or something that builds on what you are already doing)

• Crumple up the paper into a ball

• When we say 'go' throw it into the air

• Pick up one that you see close to you (ideally not your own!) and read it.

• Share and discuss what you've read with someone next to you (5 min)

and then with others at your table to see if there are shared ideas/thoughts (10 min)
New ideas from the past 2 days
Generated from the AMEE Faculty Development Committee. Aiming to learn about, from and with colleagues interested in Faculty Development in healthcare and allied professions

Suggested hashtags to ‘tag’ tweets for our followers and others:
#AMEEFacDev
#FacDev

MedEdWorld Webinars are a series of online interactive presentations on topics of current interest in education in the health professions. The webinars offer an exciting opportunity to engage online with an internationally acclaimed expert and like-minded colleagues from around the globe in a live, one hour discussion.

Webinars are available FREE of charge as of January 2019.

Join as a member to receive additional benefits including the ability to submit content to MedEdWorld. Details are available under Join.

Each Webinar is recorded and is available on this site to AMEE members shortly after each presentation. To view the recordings, select "Archived Webinars", choose your webinar and the recordings are available under "Support Links". Any presentation material that has been made available by the presenter will also be available under "Support Files".

Each webinar is presented in ZOOM.

Small table discussion

How might you move an idea forward?
- consult with one or more at your table

How might the AMEE fac dev committee help?
(webinars, listserv, SIG, Twitter discussions)

How might we build on some of this at AMEE next year and the 6th Int Conference the year after that?
How might we build on some of this at AMEE next year and the 6th Int Conference the year after that?
