

Final in-Training Evaluation Report (FITER)/ Comprehensive Competency Report (CCR)

ADULT PALLIATIVE MEDICINE

Na Eva yea	ference No: me and Identificatio aluation covering the ar as a resident: dress:							
cor	npetencies of the spec	ncy Program Committee, t ialty/subspecialty as presc t to practise as a specialist	ribed i		YES	NO □		
The	e following sources of i	nformation were used for	this ev	aluation:				
□ written examinations□ clinical observations (e.g. ITERs) from faculty				oral examinations Structured Assessment of a Cl	inical			
□ feedback from health care professionals □ OSCEs □ completion of a scholarly project □ other evaluations □								
COI	MMENTS:							
	Date	Name of Program Dire for CCR	ctor/A	ssessor Signate	ure			
Date Name of Postgraduate Dea Assessor for CCR				ean/ Signati	Signature			
	Date	Name of Resi	dent	Signati	ure			
		This is to attest that I	have r	ead this document.				

Identification number:
RESIDENT'S COMMENTS:
Note: If during the period from the date of signature of this document to the completion of training, the Residency Program Committee judges that the candidate's demonstration of competence is inconsistent with the present evaluation, it may declare the document null and void and replace it with an updated FITER. Eligibility for the examination would be dependent on the updated FITER.

Identification number:	471A - 2016

(Please read the attached Explanatory Notes before completing this report)

		EXPECTATIONS				
A rationale must be provided to support ratings with asterisks.	* Rarely meets	* Inconsistently meets	Generally meets	Sometimes exceeds	* Consistently exceeds	
MEDICAL EXPERT						
a. Demonstrates a specialist's knowledge of the basic scientific and clinical knowledge required for the competent practice of adult Palliative Medicine						
b. Elicits histories and physical examinations that are complete, (including physical, psychological, social, spiritual, and functional domains), accurate, well organized and relevant to adult Palliative Medicine						
c. Establishes and maintains clinical knowledge, skills and attitudes in the following areas relevant to adult Palliative Medicine:						
Physical symptoms and conditions						
Pain						
Emergencies/urgencies						
Psycho-social, spiritual, and existential issues						
Therapies, including medications, and alternative and complementary						
Oncologic diseases						
Non-oncologic diseases						
d. Applies the principles of adult Palliative Medicine to specific patient populations						
Pediatric patients						
Geriatric patients						
e. Demonstrates proficient and appropriate management of dying patients including those imminently dying						
f. Demonstrates proficient and an appropriate provision of community-based palliative care

ADOLI PALLIATI VE MEDICINE FITER (201					
Demonstrates proficient and appropriate management of symptoms and issues relevant to patients and patients' families, including physical, psychological, social, spiritual and functional					
Uses all pertinent information to arrive at complete and accurate clinical decisions					
Demonstrates thorough knowledge of, indications for, and complications of therapeutic interventions relevant to adult Palliative Medicine					
Generates appropriate management plans throughout the disease trajectory that balance disease modifying treatments and symptom management with patient-centred goals of care					
Identifies and appropriately responds to relevant moral and ethical issues					
Identifies and appropriately responds to suffering					
Recognizes and manages urgent/emergent conditions resulting in prompt and appropriately prioritized treatment					
Manages the care of patients with chronic or life-threatening illness throughout the disease trajectory, in various roles and models of palliative care, and across settings of care					
Demonstrates appropriate use of rehabilitation services					
Identifies factors affecting prognosis, and tools used for prognostication and their benefits and limitations

		EXPECTATIONS			
A rationale must be provided to support ratings with asterisks.	* Rarely meets	* Inconsistently meets	Generally meets	Sometimes exceeds	* Consistently exceeds
PROCEDURES AND CLINICAL SKILLS					
Demonstrates the ability to perform diagnostic and therapeutic procedures described in the Medical Expert sections 5.1 and 5.2 of the <i>Objectives of Training in Adult Palliative Medicine</i>					
a. Demonstrates proficient and appropriate skills for diagnostic and therapeutic thoracentesis					
b. Demonstrates proficient and appropriate skills for diagnostic and therapeutic paracentesis					
c. Inserts subcutaneous access					
d. Initiates and manages continuous ambulatory delivery devices (CADD pumps)					
e. Demonstrates proficient and appropriate management of the following existing therapeutic interventions:					
Biliary drainage tubes					
Chest tubes					
Enteric feeding tubes					
Epidural, intrathecal, and regional block catheters					
Implantable cardiac defibrillators					
Long term intravenous lines					
Non-invasive ventilation					
Renal and bladder drainage					
Tracheostomy tubes					
Venting gastrostomy tubes					
Obtains appropriate informed consent for procedures and therapies					
Minimizes risk and discomfort to patients					
Overall is proficient in clinical and procedural skills relevant to adult Palliative Medicine

			EXPECTATIONS						
A	rationale must be provided to support ratings with asterisks.	* Rarely meets	* Inconsistently meets	Generally meets	Sometimes exceeds	* Consistently exceeds			
	COLLABORATOR								
a.	Participates effectively and constructively in formal and informal interprofessional health care teams across settings of care to provide optimal patient care								
b.	Interacts effectively with other health professionals by acknowledging their roles and expertise in the assessment and management of patients with palliative and end-of-life care needs and patients' families throughout the disease trajectory and across settings of care								
c.	Consults and delegates appropriately								
d.	Works effectively with other health care professionals to prevent, negotiate and resolve interprofessional conflict								
e.	Practices self-reflection and promotes team reflection as tools to enhance team function and support resolution of team conflict								
f.	Participates in sharing of team responsibilities and workload, including clinical care, education and administration								
g.	Participates in and facilitates family meetings to discuss issues, including but not limited to goals of care and discharge planning								
yo	Please comment on the strengths and weaknesses of the candidate and provide a rationale for your ratings. Make direct reference to the specific objectives and give specific examples wherever possible.								

Identification number:		471A -	2016

		EXPECTATIONS							
A	rationale must be provided to support ratings with asterisks.	* Rarely meets	* Inconsistently meets	Generally meets	Sometimes exceeds	* Consistently exceeds			
	MANAGER								
a.	Describes the models of palliative and end-of-life care delivery, their utilization, advantages and disadvantages, and effect on the health care system								
b.	Sets realistic priorities and uses time effectively in order to optimize professional performance								
c.	Implements processes, including but not limited to self-reflection, the use of mentors, and incorporation of accepted standards of palliative and end-of-life care, to ensure personal practice improvement								
d.	Employs information technology appropriately for optimal patient care								
e.	Makes cost effective use of health care resources								
f.	Promotes timely advance care planning and goals of care discussions to ensure appropriate use of health care resources								
g.	Participates effectively in committees or meetings, and where appropriate, assumes a leadership role								
yo	appropriate, assumes a leadership role Please comment on the strengths and weaknesses of the candidate and provide a rationale for your ratings. Make direct reference to the specific objectives and give specific examples wherever possible.

	HEALTH ADVOCATE							
a.	Identifies and responds to individual patient health needs and psychosocial, spiritual and bioethical issues as part of patient care							
b.	Identifies and acts on opportunities for advocacy, health promotion, and disease prevention with individuals to whom they provide care							
c.	Identifies and acts on opportunities for advocacy, health promotion, and disease prevention in the communities that they serve							
d.	Recognizes the possibility of competing interests between the communities served and other populations, and identifies points of influence in the health care system							
e.	Identifies the determinants of health, including barriers to access to care and resources, for individual patients with palliative and end-of-life care needs, patients' families, communities and populations							
f.	Identifies vulnerable or marginalized populations within the palliative and end-of-life care population							
g.	Describes an approach for implementing change to reduce barriers to access of palliative and end-of-life care and improve services							
h.	Describes how public policy impacts the health of patients with palliative and end-of-life care needs							
i.	Demonstrates awareness of local, regional and national advocacy groups for palliative and end-of-life care							
yo	Please comment on the strengths and weaknesses of the candidate and provide a rationale for your ratings. Make direct reference to the specific objectives and give specific examples wherever possible.							

Identification number:		471A -	2016

A votionale must be provided to compart votings with actorisks		EXPECTATIONS					
A rationale must be provided to support ratings with asterisks.	* Rarely meets	* Inconsistently meets	Generally meets	Sometimes exceeds	* Consistently exceeds		
SCHOLAR							
a. Demonstrates an understanding of and commitment to the need for continuous learning							
b. Recognizes and reflects on learning issues in practice							
c. Critically appraises medical information, and integrates and applies new knowledge appropriately to patient care							
d. Participates actively in academic activities							
e. Facilitates the learning of patients, patients' families, and the public							
f. Facilitates learning of other health professionals through guidance, teaching, and constructive feedback							
g. Demonstrates effective teaching skills and approaches in a variety of educational settings							
h. Contributes to the development and dissemination of new knowledge							
Completes a scholarly research, quality assurance, or educational project relevant to adult Palliative Medicine	☐ Yes			□ No			
Please comment on the strengths and weaknesses of the candidate and provide a rationale for your ratings. Make direct reference to the specific objectives and give specific examples wherever possible.
